**3,500 of them are primarily
operated by women.**

All of these women in agriculture need our support, and any education we can provide them to help fuel their success is our goal. We are **THANKFUL** for these tireless workers, and the abundant bounty they provide for us, our families and our country.

Join us in empowering these women and giving them the knowledge and community to be as successful as possible as they grow Louisiana's future.

Kim
Bremmer

“It’s Time to Speak Up - Celebrating the Role of Women in Agriculture.”

“OMG! GMO’s - How to Talk About Hot Button Issues.”

Kim grew up as a farm girl and is a wife, mother of two, graduate of UW-Madison and was a dairy nutritionist for almost 15 years. She is a vocal champion of agriculture everywhere she goes, from the grocery store to the airport. Her true passion is sharing the REAL story of agriculture with everyday consumers.

“As a dairy consultant, I had the great opportunity to work with farms of all shapes and sizes and can share experiences and perspective on modern agriculture from the people who are actually doing it.”

Kim is the Wisconsin State Coordinator for Common Ground, a national movement of farm women who share information about farming and the food we grow; a regular contributor on Rural Route Radio; and President of Wisconsin Women for Agriculture, an affiliate of American Agri-Women, the nation’s largest coalition of farm, ranch and agri-business women dedicated to protecting and advancing agriculture by increasing awareness, building alliances, communication and education. She is also an Academy Member of the National Speaker’s Association and a proud member of the American Dairy Coalition. Kim was named the UW-Madison Association of Women in Agriculture’s 2014 Outstanding Woman in Agriculture. She enjoys fishing, golfing, reading and playing her guitar.
